Bangalore, Karnataka

SUMMARY

Full Stack Web Developer with hands-on experience in building responsive web applications using React, Node.js, Spring Boot, and MySQL. Strong foundation in RESTful API development, CRUD operations, and database design. Passionate about solving real-world problems through clean, scalable code and continuous learning.

EDUCATION

BACHELOR OF ENGINEERING (B.E), COMPUTER SCIENCE AND ENGINEERING

2022-2026

Bangalore Technological Institute (VTU)

CGPA: 8.9

TECHNICAL SKILL

- **Frontend :** HTML5 ,CSS3 ,JavaScript (ES6) , React.js.
- **Backend :** Node.js , Java , Spring Boot.
- **Database :** MySQL , MongoDB , SQL.
- **Soft Skills :** Communication , Leadership ,Teamwork.
- **Tools & Platforms:** Git, GitHub, VS Code

PROJECTS

Student Management System

2024

Tech stack: React, Spring Boot, MySQL, REST APIs

Built a full-stack portal for managing student records, implementing CRUD operations, user authentication, and data validation. Designed intuitive UI components and a secure backend

- https://github.com/Balaji2004-bmn/student_managent_system1.git

Hiring AI using AI Tools

2025

Tech stack: Python, Machine Learning libraries

Developed an AI-powered hiring assistant to screen resumes, analyze candidate skills, and shortlist top applicants based on custom criteria. Achieved high accuracy in candidate matching through iterative model refinement

- <https://github.com/Balaji2004-bmn/hiring-ai-future.git>

Adaptive Dream Journey Analyzer

2025-Now

Tech Stack: Python, Natural Language Processing (NLP), OpenAI/ML Models, Video Generation Tools
Designed an intelligent system that takes user dream inputs in natural language and analyzes the emotional and semantic meaning using NLP techniques. The system then generates a personalized video visualization of the dream content using AI-based video synthesis tools. The goal is to offer a unique, immersive interpretation of dreams through storytelling, emotion detection, and automated media rendering
